Installation characteristics

Electrical connection by 5-pole + T connector for cable up to 2.5 mm2. The maintained luminaires have the possibility of connection to enable / disable the maintained mode. Possibility of installation in: Ceiling/Wall surface with clamping flanges. Suspended roof, with eyebolt. Possibility of connection with: Surface tube wiring. Two 3/4" NPT entries for cable glands (not included), one of which is provided with a plug.

Operating characteristics

Valid to be supply in the following ways: Directly at rated voltage.

General Envelope data

Tubular diffuser: Borosilicate glass, E1 (7mm thick) E2/E3 (9mm thick) Polycarbonate, UV protected. 3mm thick.

Casting & connections: Aluminum injection Manufactured from marine grade aluminum alloy copper free Yellow RAL-1003 polyurethane paint Explosion proof O-ring. 2 entries 3/4" NPT for cable glands (not included) 1 plug supplied Electric connection through 5P+T 2,5 mm2 terminal block Suitable for installation on flammable surfaces
