Installation characteristics

SPAZIO R

Installation characteristics
Maintained luminaires use 3 mains supply inputs (L, L1, N) to enable / disable the maintained mode. Luminaires made up of a spotlight + electrical equipment with batteries (autonomous luminaires), or without batteries (centralized luminaires) Possibility of installation in: Recessed ceiling. Ceiling fixing by 2 springs.
Operating characteristics
The luminaire has status LEDs, which indicates: Status of the battery charging circuit. Battery status (duration) Emergency status function. Test status. Microprocessor controlled luminaire The luminaire can be connected to a control unit. When the luminaire is installed without a control unit, it performs periodic and automatic tests. Functional test every 7 days. Duration test every 365 days. The test result is shown in the status indicator LEDs. Wireless communication that allows: Communication with Control unit by wireless communication with a 868Mhz frequency system. General Envelope data
